Shuttle Stop Sketch Malibu Creek State Park

Shuttle Stop Sketch Zuma Beach

NOTE: Proposed kiosk may not be included in project due to other nearby kiosk currently being installed.

Shuttle Stop Site Furnishings

Typical Bike Rack

Beach Shuttle Stops, such as Westward Beach and/or Malibu Lagoon

Mountain Area Shuttle Stops, such as Malibu Creek State Park and Backbone Trailhead

Shuttle Stop Site Furnishings

Typical Kiosk Structure

Wood frame construction with metal brackets.

Roof: Shingles to match adjacent buildings.

Colors: To be determined.

Exhibit: Metal framed Display Panel

(same as used at Solstice Canyon)

Shuttle Stop Site Furnishings

Typical Bench

Concrete structure with heavy timber slats (4" x 4").

Rot resistant and sustainably harvested wood required.

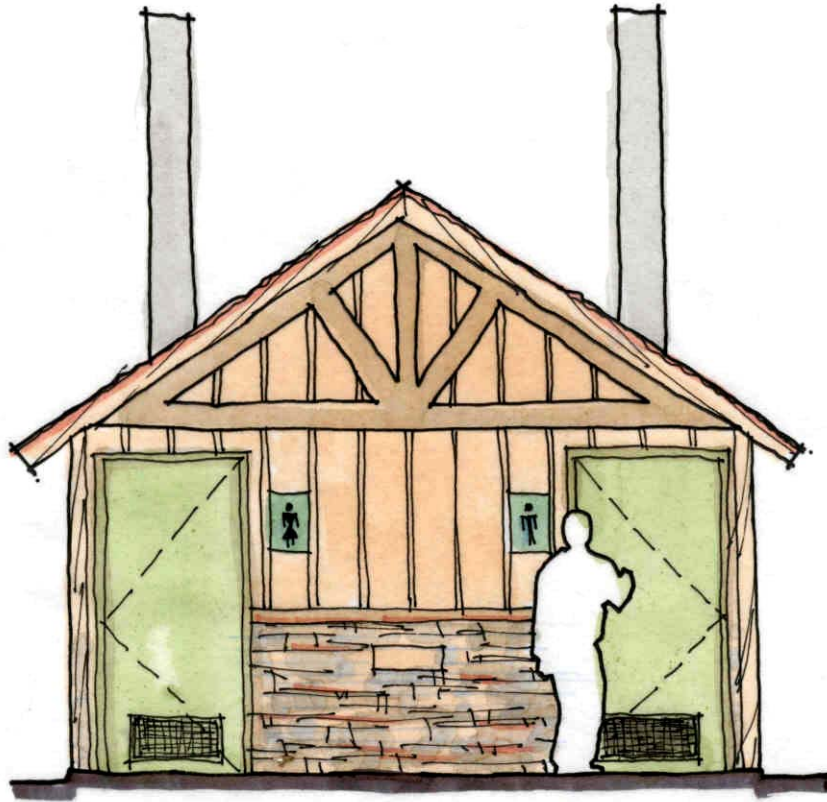

Stainless steel fasteners.

Bench design emphasizes:

- Comfort
- Simplicity of form
- Simplicity of detail
- Ease of maintenance
- Durability of finish
- Resistance to vandalism
- Cost

Shuttle Stop Site Furnishings

Typical Restroom Building

Prefabricated construction.

Siding: Board and batten – upper half
Cultured stone – lower half.

Roof: Standard Shake Texture.

Colors: To be determined.

(same as used at Solstice Canyon)

Shuttle Stop Site Furnishings

Typical Sign

Materials: Continuous Welded
Galvanized Steel

Finish: Powder Coated

Color: Dark Brown or Dark Green
with White Lettering and/or
Graphics
